Torque Converter Catalog

*This catalog includes the
following new Transmissions:*

GM	2ML70 6T40 VT25-E
ALLISON	MD3000
FORD	6R140 CFT-30 HD-10
CHRYSLER	AS68RC
AW	AW55-50SN
MAZDA	FNR5
MERCEDES	722.9
NISSAN	RE0F10A JF405E
SUBARU	4EAT
TOYOTA	A750E, A760E AB60E P111 U660E
VW	02E (DCT) 09G (TF60SN)

“2011 Professional Automatic Transmission Parts Catalog”

Copyright 2011 Transtar Industries, Inc.

This 2011 Transtar® Automatic Transmission Catalog replaces and supersedes all earlier Automatic Transmission Parts Catalogs of Transtar and its predecessor and affiliated companies. All future orders should be made using this Catalog. Transtar reserves the right to amend, supplement, modify or cease the distribution of this Catalog and the sale, distribution or price of any items herein, at any time. Further, the products listed herein may not represent all the products that may be available from Transtar or its affiliates, subsidiaries or the industry.

This Catalog is the proprietary and protected intellectual property of Transtar. Transtar reserves all of its rights to its intellectual property in this Catalog. This Catalog may contain other companies' trademarks, copyrights or derivations thereof, which are used with their permission. No part of this work, including but not limited to the Part Numbers and Part Numbering system, may be reproduced, stored in an information or retrieval system or transmitted in any form or by any means, electronic or mechanical, including photocopying and recording without the prior written approval of Transtar. Customers of Transtar may use the Parts Numbers for purposes of placing orders with Transtar, or otherwise operating their business, but no permission is granted to any customer or other individual or entity to make use of the Part Numbers or any other information herein to compete with Transtar in any way.

TSS.....	Turbine Speed Sensor
Turbulator.....	Steels w/ Holes
VFS.....	Variable Force Solenoid
VLP.....	Variable Line Pressure
VSS.....	Vehicle Speed Sensor
Wet Clutch (DCT).....	Runs in Oil

The Transtar Part Numbering System

The new Transtar part numbering system is very easy to use. The part number is based on a **prefix**, **base number**, and **suffix**, that, when broken down, will tell you the almost everything you need to know about the part.

Prefix Letters refer to various part differences, such as the part's origin. Here are some examples of prefix letters and their meanings (although prefixes may differ between product groups):

A	Aftermarket New
B	Borg Warner Brand
C	Core
D	Original Equipment
N	New
P	Premium Parts
R	Remanufactured Hard Parts (Previously AR)

The **Base Number** is made up of two components, beginning with a two or three-digit number that tells you the Transmission Type. You can see the Transmission Type in the Table of Contents on pages three and four of this catalog. For example, "14" is the Transmission Type for an 4T40E. The Transmission Type is also located on the Illustration page, or exploded view, of each transmission.

The next three digits refer to the product group. The numbers "500" for example, tell you that the part is a pump. (For the complete list of product group numbers, please see the "Part Numbering Guide" on our web-site.)

Suffix Letters refer to part differences, such as its design level or material composition. Here are some examples of suffix letters and their meanings (although suffixes may differ between product groups):

F	Fiber Pan Gaskets
HD	Heavy Duty
HP	High Performance
K	Parts in Kit Form

Pages

1. Illustration Number
2. Product Description
3. Quantity used in a standard rebuild
4. Year Coverage
5. Transtar Part Number
6. Reference Number (OE Number)
7. Transmission Name
8. Transmission Type

NOTES

New from BorgWarner!

Part No. 50155
Replacement EPC Solenoid
Fits Ford/Mazda Transmissions
4R44E/4R55E/5R44E/5R55E

BorgWarner's EPC replacement solenoid develops **THREE TIMES THE FORCE** of the OE design to plow through debris to meter oil flow properly.

Resistance is futile.

Derived from a proven "force motor" design used in millions of transmissions, BorgWarner's new EPC replacement solenoid greatly reduces your risk of stuck spool valve conditions. Calibrated to ensure smooth and durable operation, BorgWarner's EPC solenoid is the unbeatable choice for robust performance against transmission fluid contamination.

Call your authorized Transtar distributor today and ask for genuine OEM quality solenoids from the global leader in automatic transmission technology...BorgWarner, Inc.

 **BorgWarner**

feel good about driving
